

BUILDING SERVICES

BOMA STANDARDS

Services Provided:

- BOMA Standard of Measuring
- Floor Plan Mapping
- Floor Plan Stakeout
- ALTA/ACSM Boundary Surveying
- Flood Certifications

Description of Services:

Omland Engineering Associates, Inc. provides interior measuring and mapping services in accordance with current BOMA Standards for use by our clients in calculating marketable space. OEA also provides boundary surveys, ALTA/ACSM Land Title Surveys, construction stakeout, as-built and topographic surveys for residential, industrial, commercial and institutional clients within New Jersey and the surrounding areas. We can also provide stakeout of interior wall layouts and/or baselines. In addition, OEA is a full services civil engineering firm that can provide a host of services may be required in the development or redevelopment process.
