- NJDOT Access permitting

Project Description:

We have been retained by Ray Catena MotorCars to provide a variety of design services at their dealerships in Bridgewater, Edison (2 locations) and Freehold. Ray Catena's automobile facilities strive for the highest level of customer satisfaction and ease of use. At the Bridgewater Infiniti dealership, we provided a complete range of surveying, engineering and permitting services, including NJDEP flood hazard and NJDOT access permit. For their Edison facilities, we were involved with acquiring new NJDOT access permits for an expansion of their existing dealerships (Mercedes, Porsche, Aston Martin, Jaguar and Lexus) on Route 1 NB, and traffic engineering services for their 125,000 square foot new service center on Main Street. Their Freehold dealership involved the reconstruction and rehabilitation of a former dealership for a new Lexus dealership. We again provided traffic engineering services including acquisition of a new NJDOT access permit for the site.
